Profile

Frontend developer is the speciality in which I want to grow and develop as a specialist. I learned everything by myself, step by step, to offer you the best practices and modern coding techniques, never stopped learning new frameworks and libraries, creating new applications and websites.

Today, having tools such as Typescript, Javascript, React, React Native, Redux, Redux Toolkit, SCSS, Axios, Formik and many others on my belt, I can create a site of any complexity, both with adaptive layout or with adaptive, no matter how many animations it needs to have or what device it needs to look great on.

Employment History

Frontend developer at KozhinDev, Krasnoyarsk

01/2022 - 06/2022

Developed various React Native websites and applications, the most interesting of which:

• https://kozhindev.com - developed website's frontend part, improved it's view and added different features using React, Redux, Typescript and Steroids framework. Implemented adaptive design for mobile phones/tablets.

• https://goldenbee.estate - developed frontend part of website using React, Redux, Typescript and Steroids framework.

• Connected local supermarket's React Native app with their database.

Junior frontend developer at 24Pixels, Krasnoyarsk

04/2021 - 11/2021

• Developed responsive/adaptive layouts for websites using Figma/Photoshop templates;
• Maintained websites by adding new features and data;
• Programmed modern websites using HTML, CSS/SASS, Javascript, Typescript, React and Redux frameworks;
• Conducted testing and review of website design for responsiveness, clarity and effectiveness;
• Converted websites into installable PWA's to bring a native app-like user experience.
